aes Ohio

How to Calculate Your AES Ohio Bill
Residential (Rate 141 - Summer)

You will need:

To verify you are on Rate 141- find the section near the middle of your AES Ohio bill labeled "Usage Detail", below which the column titled "Rate" should read 141.

Your monthly kWh Usage is to the left of your Rate number on your AES Ohio bill. See example below.

		Billing Period		Billing	Meter Reading					
Service	Meter Use	From	To	Days	Previous	Current	Multiplier	Usage	Rate	Rate Description:
Electric	Actual	06/18/17	07/18/17	30	91439	93242	1	1803	141	Residential Heating

To verify that your bill is within a 25 to 35 day billing cycle (also on your AES Ohio bill) - under "Usage Detail" find the column titled "Billing Days". NOTE: this rate worksheet will not correctly calculate bills outside of the 25 to 35 day billing cycle. Net Metering customers see second tab for rates.

To verify that your bill does not span across both a summer and a winter month (i.e. billing period of October 15th – November 15th). This rate worksheet will not correctly prorate bills that span across a summer and a winter month.

For Rate 141, you will need to find the total electric usage for the month.

Input usage below

kWh Usage: 1,000

Total Bill	$ 169.82
Price - To - Compare	0.108

AES Ohio Delivery Charges:

Customer Charge (D18):			$ 9.75
	A flat fee per billing period of	$ 9.75	
Other Delivery Charges:
