

## How to Calculate Your AES Ohio Bill Residential (Rate 241 - Winter) PIPP

## You will need:

To verify you are on Rate 241- find the section near the middle of your AES Ohio bill labeled "Usage Detail", below which the column titled "Rate" should read 241.

Your monthly kWh Usage is to the left of your Rate number on your AES Ohio bill. See example below.

Usage Detail											
		Meter	r Billing Period		Billing	Meter Reading					
Ser	rvice	Use	From	То	Days	Previous	Current	Multiplier	Usage	Rate	Rate Description:
Ele	ctric	Estimate	11/02/0217	12/02/17	31	44074	44842	1	768	241	Residential Heating

To verify that your bill is within a 25 to 35 day billing cycle (also on your AES Ohio bill) - under "Usage Detail" find the column titled "Billing Days". NOTE: this rate worksheet will not correctly calculate bills outside of the 25 to 35 day billing cycle. Net Metering customers see second tab for rates.

To verify that your bill does not span across both a summer and a winter month (i.e. billing period of October 15<sup>th</sup> – November 15<sup>th</sup>). This rate worksheet will not correctly prorate bills that span across a summer and a winter month.

For Rate 241, you will need to find the total electric usage for the month.
