

# Energy Supply Options

All Ohio utilities participate in a market-based auction for energy supply

Energy supply is the first stage of getting electricity to your home or business. In Ohio, you can choose your energy supplier from a variety of PUCO-certified options or AES Ohio's Price to Compare. Whichever supplier you choose, AES Ohio will continue to deliver your energy.

- Price to Compare is set after the two market-based auctions.
- Customers can use the Price to Compare to choose an energy supplier.
- If a customer chooses AES Ohio's Standard Service Offer (SSO) for their energy supply, we charge the Price to Compare with no mark-up.

Starting June 1, 2026

**AES Ohio's Price to Compare is 10.9 cents per kWh.**

# What you should do:

- Use the updated Price to Compare to see whether other suppliers can offer you a better rate or terms.
- Compare offers using a trusted resource. Visit [energychoice.ohio.gov](http://energychoice.ohio.gov) to review certified supplier offers and compare them side-by-side.
- Check if community aggregation is available where you live. Availability depends on your community, so check your city or township's website.

Period: June 01, 2026 To June 26, 2026		
<b>TOTAL SUPPLIER CHARGES: 829 kWh @ \$0.0943</b>		<b>\$77.89</b>

**Service Level Message Center**  
As part of Ohio's Electric Choice Program, your electric supply is provided by Sample Supplier, PO Box 12, Any City, Ohio 44000, 000-800-0000. This bill reflects charges for these services and AES Ohio charges for electric delivery service.

**PRICE-TO-COMPARE:** In order for you to save money off of your utility's supply charges, a supplier must offer you a price lower than AES Ohio's price of 9.6-cents per kWh, for the same power that appears on this bill. To review available competitive supplier offers, visit the Public Utilities Commission of Ohio's Energy Choice Ohio website at [energychoice.ohio.gov](http://energychoice.ohio.gov). You may contact AES Ohio for a written explanation of the price-to-compare message.
