

Helpful tips for spring planting season with the utilities in mind

The weather is warming up and so are many outdoor activities such as landscaping and home improvement projects. By selecting the right tree and planting it in the right place, you can help reduce power outages for you and your neighbors. It's important to plant smart with the utilities in mind. When planting trees consider how large they will be at maturity. It's difficult to imagine that the 6-foot tree you plant today could grow up to 80 feet or more over time.

Follow three easy tips for planting the right tree in the right spot to prevent tree growth into overhead power lines.

1. Find the **right tree**
2. Choose the **right spot**
3. Put **safety first**
call before you dig

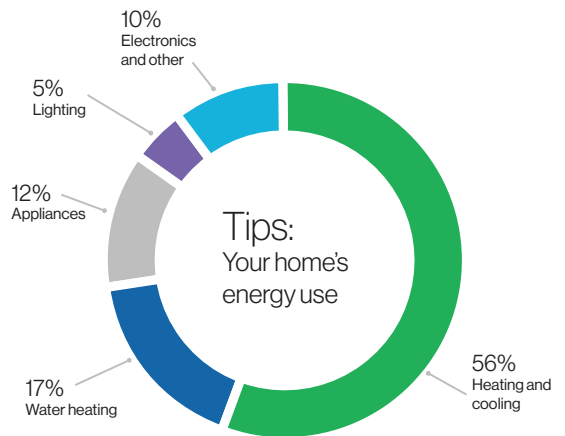

For more information about the Right Tree, Right Place program, visit aes-ohio.com/righttree.

Start saving this Earth Day with smart thermostat instant rebates

Cooling your home during the spring and summer uses a lot of energy. Did you know 56% of your home's energy use goes to heating and cooling? AES Ohio wants to help you save energy and money by educating you on how your home uses energy.

With a smart thermostat you can enjoy comfort, control, convenience and savings.

Visit AES Ohio Marketplace, aesohiomarketplace.com for instant rebates on smart thermostats.

Go green on Earth Day with paperless billing

At AES Ohio on Earth Day and every day, we're proud to do our part to create a sustainable and healthy environment. From our positive impact by planting trees safely throughout our community, broadening the awareness of electric vehicles, developing renewable options, and encouraging energy efficiency and conservation practices. Together, we can create a green energy future.

Take the next step in sustainability with your online account. Receive your AES Ohio bill in an environmentally friendly way when you sign up for E-Bill. It's a convenient, easy and secure way to receive, view and pay your bill.

Create a MyAES online profile in a few easy steps, you just need your account number and zip code to get started. Enroll today at aes-ohio.com/e-paperless-billing.

Building a smarter energy future with investments in our electric infrastructure

AES Ohio invests in our equipment and technology to create a stronger, safer and more efficient electrical system every day. We know that our customers depend on us to provide the electricity they need to power their lives today and in the future. That's why we design our system with advanced analytics and built-in reliability measures to meet the increased economic development and growing electric demand in our region. Additionally, we conduct routine equipment inspections and maintenance, pole replacements and tree trimming to strengthen our system.

AES Ohio participates in Five Rivers Metroparks Adopt-A-Park, [volunteer opportunities available](#)

Adopt-A-Park is back in-person for 2022! A tip off to Earth Day, AES Ohio volunteers and their families are supporting efforts to clean up the banks of the Great Miami River near our service building in Moraine. Clean and green are part of our mission including the nature around us.

Join Miami Valley residents in Five Rivers MetroParks' annual Earth Day celebration. Spend the morning volunteering in parks and other areas. These projects include habitat maintenance, gardening activities, mulching nature play areas and a variety of park clean-up activities.

Sign-up to be a volunteer at metroparks.galaxydigital.com.

To learn more about Five Rivers Metroparks visit metroparks.org.
