

How to Calculate Your AES Ohio Bill

Residential (Rate 211) PIPP

You will need:

To verify you are on Rate 211 - find the section near the middle of your AES Ohio bill labeled "Usage Detail", below which the column titled "Rate" should read 211.

Your monthly kWh Usage is to the left of your Rate number on your AES Ohio bill. See example below.

Usage Detail										
Service	Meter Use	Billing Period		Billing Days	Meter Reading		Multiplier	Usage	Rate	Rate Description:
Electric	Estimate	05/02/2017	06/02/17	31	44074	44842	1	768	211	Residential

To verify that your bill is within a 25 to 35 day billing cycle (also on your AES Ohio bill) - under "Usage Detail" find the column titled "Billing Days". NOTE: this rate worksheet will not correctly calculate bills outside of the 25 to 35 day billing cycle. Net Metering customers see second tab for rates.

For Rate 211, you will need to find the total electric usage for the month.
